

**IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER
MONITORING REQUIREMENTS NOT MET FOR**

WILLIAMSTOWN WATER DEPT, WV3305412

We are required to monitor your drinking water on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. Between 1/1/2022 and 12/31/2024, we failed to submit the required samples as indicated below and therefore cannot be sure of the quality of our drinking water during that time.

What should I do?

There is nothing you need to do at this time.

The table below lists the required monitoring and the compliance period.

Required Monitoring	Compliance Period
52, FOLLOW-UP OR ROUTINE TAP M/R (LCR) LEAD & COPPER RULE Lead & Copper Sample Results Not Reported as Required	1/1/2022 to 12/31/2024

What happened? What is being done? (Describe corrective action)

The City of Williamstown Water Department was unable to pull the required 20 Lead and Copper Samples for the compliance period listed above because we did not have an approved sample site plan. The water department is working to get the sample site plan approved before we are required to do the next set of samples.

For more information, please contact Alan Gates at 307-375-5900
